Vaccination of Individuals with Uncertain/Incomplete Immunisation Status

Date: _____

PATIENT'S NAME, DOB & CHI
ADDRESS
POSTCODE

To Whom It May Concern

The above named patient had not completed their primary vaccination schedule prior to their cancer diagnosis. They are now more than 3 months post treatment and can now re-commence their vaccine schedule as per Green Book guidance for an individual with uncertain/incomplete immunisation status.

They will also require one additional dose of Meningitis B vaccination (Bexsero or equivalent brand).

Yours faithfully
